

BY JOHN H. OBERLY & CO.

CAIRO, ILLINOIS, OCTOBER 26, 1870.

ONLY DAILY PAPER IN EGYPT.

From the Address of Democratic Congressmen Let there be no discussions about minor matters; no time lost in discussion of dead events; no manifestation of narrow or proscriptive feeling; no sacrifice of the cause to gratify personal ambition or resentment.

DEMOCRATIC TICKET.

- FOR CONGRESS—STATE-AT-LARGE, GEN. WILLIAM T. ANDERSON, Of Jefferson County. FOR STATE TREASURER, CHARLES RIDGELY, Of Sangamon County. FOR SUPERINTENDENT OF PUBLIC INSTRUCTION, CHARLES FRISKE, Of Peoria County. FOR PENITENTIARY COMMISSIONER, (LONG TERM), GEN. FRANCIS T. SHERMAN, Of Cook County. FOR PENITENTIARY COMMISSIONER, (SHORT TERM), THOMAS REDMOND, Of Adams County. FOR CONGRESS—THIRTEENTH DISTRICT, COL. JOHN W. CRABS, Of White Co. FOR SENATORS, 1ST DISTRICT, S. K. GIBSON, Of Gallatin County, THOMAS A. E. HOLCOMB, Of Union Co. FOR REPRESENTATIVE—1ST DISTRICT, H. WATSON WEBB. FOR SHERIFF, ALEXANDER H. IRVIN. FOR CORONER, JOHN H. COCHRAN.

THE Radical party seem to think that in the order of the progress they have been effecting, the day for free elections and civil law has gone by. Do the people think so?

THE Albany Evening Journal says "the Democrats begin to squeal." The amount of taxes wrested from them by their Radical rulers is enough to make anybody squeal.

A RADICAL paper confidently announces that the voting season is over because the signature of the President to sundry official documents, betrays his presence in Washington.

ELECTIONS.—In West Virginia, Oct. 23; Delaware, Kansas, Louisiana, Minnesota, and Missouri, Nov. 1; South Carolina, Nov. 7; Maryland, Illinois, Massachusetts, New Jersey, New York, and Wisconsin, Nov. 8.

A RADICAL contemporary has fallen into the habit of scolding us by referring to the BULLETIN as "a certain newspaper in this congressional district." Our only resource is to "go mad."

SENATOR SPRAGUE is preparing another philippic against Radical extravagance, fraud, corruption, and the tendencies of the party to centralization. Were it not for his occasional speeches the little Senator would never rise above the surface.

OFFICIAL data show that there are nearly as many Admirals and Commodores alone, as there are ships in the Navy. At Washington, where there is hardly a ship a year in the harbor, there are on duty ten Admirals, nine Commodores, and scores of other officers, in all over a hundred.

THE Chicago Post thinks there will never be peace in the Radical party of Chicago until an earthquake overthrows the Tribune office. The editor might have added, with truth, that there never will be real peace in the country at large until the people overthrow the Radical party.

THE first nine of the Chicago White Stockings visited St. Louis on Monday. A Chicago paper takes advantage of the fact to remark that such an influx of citizens was an unusual thing for St. Louis, and expressed the belief that it would lead to an immediate revision of the census.

INDIANA gave a grant over 9,000 majority. Since then Radicalism has added to its ranks by a fraudulent "amendment" thousands of new voters in that as in every other State. Yet Radicalism is beaten over 20,000 in Indiana now. Add the Radical majority that has been wiped out and the Democratic majority that has appeared in its place to the newly manufactured vote, and you have the number of voters in Indiana who have turned their backs in disgust on the Radical party and voted with the Democracy for a change, and the prosperity and liberty a change alone can bring.

It is thought probable that Long John Wentworth will be placed in nomination by the Cook county Democratic convention for Congress. Wentworth is known to be in accord with the Democrats on the tariff and currency questions, and if his nomination will furnish the Democrats an opportunity to get the "half loaf," and to defeat an obnoxious, straight-out Radical, it ought by all means to be made. Democratic and free-trade Republican votes would elect "Long John" by a very decided majority.

GEN. GRANT refuses to allow the correspondence between Secretary Cox and himself concerning the latter's resignation, to be published, but the cause is well known in Washington. In carrying out reforms, the Secretary stumbled into several huge "rings," and when about destroying them his hand was stayed by the President. Refusing all complicity, either direct or indirect, with such conspiracies, he stepped out of the Cabinet through the same door by which Mr. Hoar had preceded him.

THE DONAHUE AFFIDAVIT. On Friday last, we published the affidavit of Matthew Donahue, in which he charged that Mr. Munn, while a substitute broker, had inveigled him into the gunboat service, promising him \$300, and that he had never received the amount. The affidavit, and the confirmatory affidavit of James Brodie, we published by permission of the editor of the Mound City Journal, on the condition that we should give to his paper the proper credit. In this morning's Sun we find what purports to be a counter affidavit from Donahue, in which he says he was drunk when he made his first affidavit, and does not recollect that he began suit against Mr. Munn for the amount due him.

THE BULLETIN is responsible for every charge it makes upon its own responsibility, but not for every article that may be copied into its columns from other journals, and it will expect the Journal to explain Donahue's unaccountable conduct. We are informed that undue influences were brought to bear upon Donahue by the Radical leaders of Cairo—that he was well paid for his contradiction, and that he is to be prosecuted for perjury; but we shall reserve any positive statement in regard to the matter until we have received reliable information.

HE DID! HE DIDNT!

Quite every man, woman and child present at the recent Radical meeting, held at the court house, heard Dan Munn declare that Everett W. Munn had been appointed to a place in the Cairo post office on the recommendation of Col. Graham. Col. McKeanig being called on to substantiate the declaration, said "that the statement of Mr. Munn was true; that E. W. Munn had been appointed on the recommendation of Col. Graham." The editor of the Cairo Sun was present, heard the remarks of both Munn and McKeanig—and published those of the latter gentleman in the next issue of his paper. The BULLETIN having shown by the testimony of one of the most truthful and honorable gentlemen in Illinois, that, in declaring that E. W. Munn was appointed upon the recommendation of Colonel Graham, D. W. Munn had uttered a falsehood, what does the editor of the Sun do? He shamefully denies that D. W. Munn ever made the declaration—denies it full view of the published language of Col. McKeanig—"that the statement of D. W. Munn was true; that E. W. Munn had been appointed on the recommendation of Col. Graham." Here we have, then, Col. McKeanig who asserts that D. W. Munn did make the statement and that it was true. The editor of the Sun, forgetful of his own report of the speech, or ignorant of the import of the language he used, declares that Munn did not make the statement, and whoever says he did, doesn't speak the truth!

We are apprehensive that the large number of persons who heard the speech and remember its details, will believe Col. McKeanig and disbelieve the editor of the Sun. Dan Munn having arrived at that desperate turn in life when he is prepared to say that he "doesn't care what the people think about him," neither affirms nor denies. His word, however, would add very little weight to either side.

As it is no longer our fight, exit BULLETIN. We are now a complacent looker-on ready to exclaim: Go it, McKeanig; go it, Davis; "go it husband; go it bear," as the phrases of the contention may seem to warrant.

MUNN AT CARBONDALE. In another column we publish a report of the remarkable speech made by Mr. Munn at Carbondale, on the evening of Monday last. In the note accompanying the report, the writer says: "The above is about the sum 'and substance of all he said, though it took him three hours to say it."

The honorable gentleman,—for, as Mark Antony has it, they are all, all honorable men, those Radical orators, if the proper sarcastic emphasis is put upon the words "all" and "honorable"—the honorable gentleman declared that "the editors of the BULLETIN had published slanders and falsehoods against him, and he had made them 'take it back' and acknowledge that 'they had lied.'"

In this statement there are two falsehoods. It is false, in the first place, that we have knowingly published any slanders or falsehoods against Mr. Munn; and it is not true, that he has made us take back anything.

We have, in our treatment of Mr. Munn, leaned to the side of mercy, keeping far within the truth; and have, indeed, used only the mildest kind of language that could be employed while speaking of a man so utterly destitute of any good quality. We have nothing extenuated or set down aught in malice. Concerning the boast of the gentleman, that he compelled us to "take back" anything, we have only to say that it has no foundation in fact. He never attempted to do any such thing. We are, if we have any wish in the matter, rather anxious that he should make such an attempt. Any intimation of a desire on his part to engage in the pastime, will be courteously responded to by us.

From the brief report given of the speech, it will be seen that Munn actually went off with a tremendous explosion, and abused and vilified every Democrat he could think of. Allen and Green were referred to in mild language, because he is afraid of them. They know his history at the bar and at the legislature, and he dare not assail them. But, how he did go for Morgan and Albright! What he said about them we are sure is a mass of falsehood, of a piece with the other outgivings of his malicious and untruthful tongue.

On Saturday night, in response to an invitation, Mr. Oberly will reply to Mr. Munn's tirade at Carbondale.

MUNN IN CARBONDALE.

A Tirade of Abuse and Vilification.

(Correspondence of the Cairo Bulletin.)

Carbondale, Oct. 24th, 1870. Dan Munn made an exhibition if his highness last night to the citizens of Carbondale. He said the world moves. As an evidence of it he had challenged John M. Crebs to meet him in a joint discussion. Crebs had refused to meet him. Crebs had not been faithful to the trust committed to his care. Crebs was used up by the speaker at Du Quoin. He could not answer his questions. It took all his time to clear up his rotten record, to the satisfaction of his rebel friends and supporters.

The Democratic party are thieves; they had stolen forts, arsenals, States, and stole Andy Johnson. Democrats loved Johnson's administration for the reason that they steal. The Democratic party are bloody-handed traitors; the Democrats did not help put down the war, but encouraged it; promised Jeff. Davis support from Illinois; endorsed Forrest at Fort Pillow; had placed hands upon his track to vilify and defame his character. Judge Green and John Allen had slandered him. John G. Morgan was a villain and scoundrel; a third rate school teacher; a defaulter to Alexander county to the amount of \$3,400.00. The editors of the BULLETIN had published slander and falsehood against him, and that he had made them take it back, and acknowledge that they had lied. John M. Crebs took one Mount Albright in his buggy all through Williamson county, and introduced him as a Republican who had gone back on Munn but would vote for the rest of the Republican ticket; that Albright made speeches to that effect and he could prove it. He said that Albright was a liar and scoundrel; that he was a deserter from the Union army, etc.; that John M. Crebs voted in Congress for Jeff. Davis, Breckinridge, Forrest, Bourgeois, and all

the bloody-handed rebels to have seats in Congress.

At this point Dan cried: War! War! War!!! He bowed his head and shed tears, and with a faltering voice he said: "I must speak of the dead, of that dear child that died when he was fighting the rebels; of his sick father, etc. Several sorrowful groans were heard. One faithful Dinah said her heart most bus with grief for that man."

He closed by exhorting every Radical to see that every loyal man voted. He was in favor of the darkies voting. He also stated that rebels at Mound City had paid \$500 for some person to sue him for back pay while in the bounty business; that Cairo Democrats assisted in the scheme. Oberly, Morgan, and others, etc. His audience numbered 175 men, 33 women, 21 he American citizens of Adams County, and 7 the do. REPORTER.

HAIR RESTORATIVE.

NEW DISCOVERY!! PHALON'S "VITALIA;"

Salvation for the Hair. For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the "dyes," "colorers," and "restorers" (V) in use. It acts on a totally different principle. It is limpid, fragrant, and perfectly innocuous, precipitates no muddy or flacculent matter, requires no shaking up, and communicates no stain to the skin or the linen. No paper curtain is necessary to conceal its turbid appearance, for the simple reason that it is not turbid. It is, to all intents and purposes, A NEW DISCOVERY in Toilet Chemistry.

PHALON'S "VITALIA" is warranted to effect a change in the color of the hair within 10 days after the first application, the directions being carefully observed.

IT IS AS CLEAR AS WATER! AND HAS NO SEDIMENT. Price, One Dollar per Box, CONTAINING TWO BOTTLES. SOLD BY ALL DRUGGISTS. If your Druggist has not "Vitalia" on hand, write, enclosing \$1.00, and we will forward it immediately.

PHALON & SON, 517 Broadway, N. Y.

GALEN'S

Head Dispensary

Established in 1850, and chartered 1861, for the treatment of all diseases of a private nature, in either sex. A cure is guaranteed in every case undertaken.

MEDICAL.

THE CELEBRATED HOME

Stomach Bitters

The Best Tonic Stimulant Known to the Medical Faculty.

Indorsed by every physician who has examined them, among whom are some of the most eminent in the city, as being the best and purest made. These Bitters are prepared from the most valuable roots, barks and herbs known to medical science, and are unexcelled as a preventive and cure for all diseases arising from malarious causes.

FEVER AND AGUE

St. Louis, Mo. July 18th, 1870. Messrs. JAMES A. JACKSON & CO.—Gentlemen: The enclosed is a certificate of the value of the various compounds known under the name of "Stomach Bitters," which is contained in the book on the valuable combinations of remedial agents which constitute your "Home Bitters." Upon being used, I have observed its effects in my private practice, I can only recommend it as the best tonic now offered to the public, one whose invigorating properties will be equal to any other tonic, and which is unexcelled and the well.

St. Louis, Mo. Sept. 1st, 1870. Messrs. JAMES A. JACKSON & CO.—Gentlemen: I have examined the formula for the preparation of the "Home Bitters," which is contained in the book on the valuable combinations of remedial agents which constitute your "Home Bitters." Upon being used, I have observed its effects in my private practice, I can only recommend it as the best tonic now offered to the public, one whose invigorating properties will be equal to any other tonic, and which is unexcelled and the well.

It gives me pleasure to add mine to the many testimonials shown me in regard to the worth of the "Home Bitters," and since I have observed its effects in my private practice, I can only recommend it as the best tonic now offered to the public, one whose invigorating properties will be equal to any other tonic, and which is unexcelled and the well.

Dr. DRABE McINTYRE, late President of the Missouri Medical College, under the name of July 18th, 1870, authorized us to say, he has examined the formula for the preparation of the "Home Bitters," which is contained in the book on the valuable vegetable tonic known to the Pharmacopoeia. The combination he regards as excellent, and the process of manufacturing such as to derive from the ingredients the full strength of their valuable properties. He further says: "You may refer to me as endorsing the 'Home Bitters' as a mild and anti-periodic stimulant, of great value in malarial regions."

He further says: "You may refer to me as endorsing the 'Home Bitters' as a mild and anti-periodic stimulant, of great value in malarial regions."

Dr. DRABE McINTYRE, late President of the Missouri Medical College, under the name of July 18th, 1870, authorized us to say, he has examined the formula for the preparation of the "Home Bitters," which is contained in the book on the valuable vegetable tonic known to the Pharmacopoeia. The combination he regards as excellent, and the process of manufacturing such as to derive from the ingredients the full strength of their valuable properties. He further says: "You may refer to me as endorsing the 'Home Bitters' as a mild and anti-periodic stimulant, of great value in malarial regions."
